Docket E-00000XX-13-0214

Dear members of the Arizona Corporation Commission:

DOCKETED BY

I am a small business owner and I am concerned about my lack of efficient energy use. Recently, my bills have been very high, and I am concerned about my profitability, as well as my ability to compete with the surrounding businesses. It is because of this that I am in full support of the energy efficiency standard.

Efficiency is very important because it saves money and it is very forward thinking. I hope that you will support the standard as well. I would definitely be willing to pay for the initial cost of efficiency, so that my electricity bills can be lower in the future. Thank you for your consideration of my letter.

Yours truly
